

ENTERPRISE CLOUD INDEX

HEALTHCARE INDUSTRY FINDINGS

HEALTHCARE IS LEADING THE WAY WITH HYBRID CLOUD.

When asked about hybrid cloud adoption,

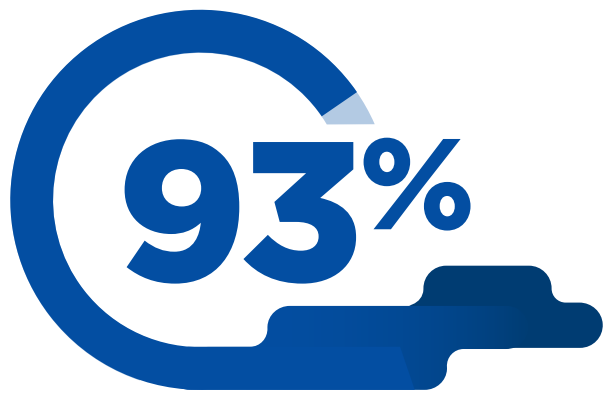

agreed that hybrid was their ideal operating choice

Healthcare was more bullish than any other sector

ORGANIZATIONS ARE PIVOTING TO HYBRID CLOUD WITH HYPERCONVERGED INFRASTRUCTURE (HCI).

In a study to measure the adoption of hyperconverged infrastructure within the healthcare industry,

of healthcare respondents:

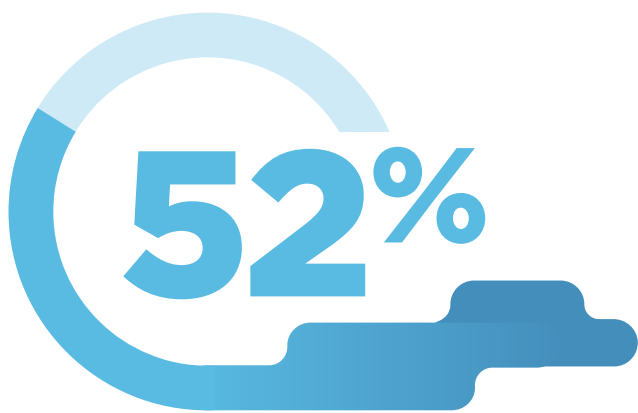

currently run on-prem infrastructure and have or plan to deploy HCI

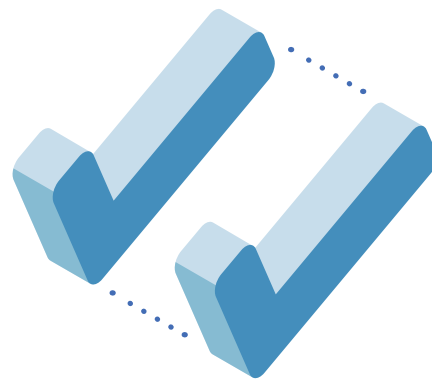

have or plan to use HCI as their transitional IT journey to hybrid cloud

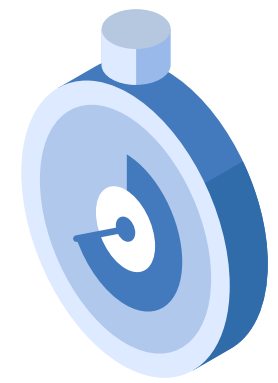

THE PROMISE OF IMPROVING ORGANIZATIONAL OUTCOMES.

of healthcare respondents:

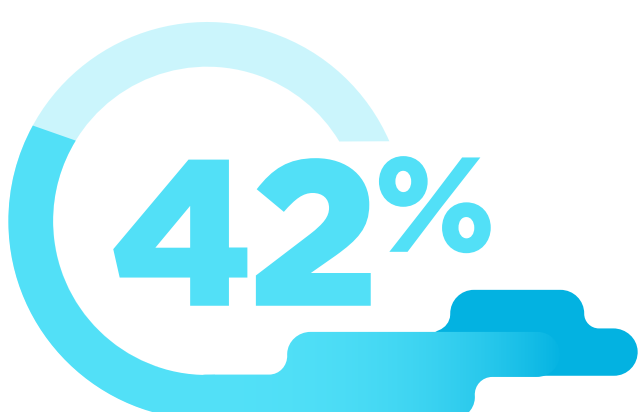

have increased the speed in which they were able to meet organization requirements

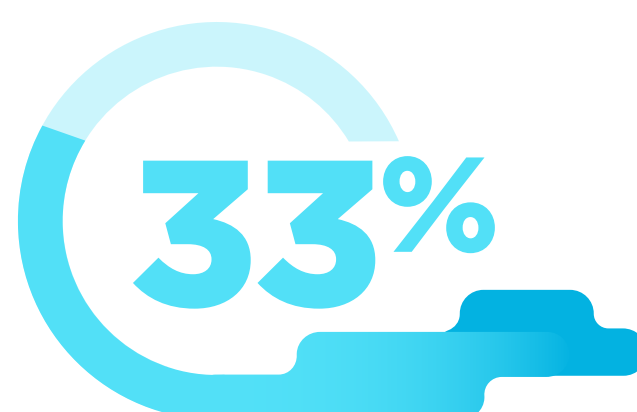

have increased speed in which they were able to deliver on strategic business outcomes

THE FUTURE OF APPLICATION TRENDS, WHERE WILL THEY BE DEPLOYED.

When asked about clinical and non-clinical application plans for 2021,

say they will run more applications in public cloud(s)

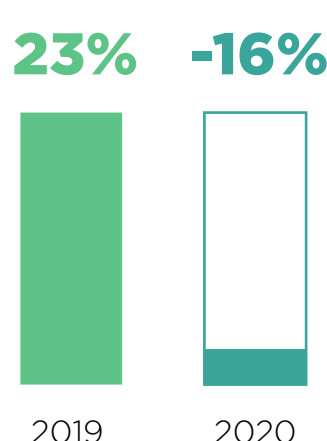

say they will run more applications in a private cloud

HEALTHCARE ORGANIZATIONS ACCOMMODATE WORKERS DURING THE PANDEMIC.

More remote healthcare workers than ever before.

Just 7% of healthcare respondents said they had no remote workers in 2020, that number plummeted from the 23% in 2019

More than half of all healthcare organizations have increased their investment in public, private, or hybrid cloud environments
